

TANIA

Full Stack Developer

Greater Noida | taniapmvt@gmail.com | +91 74978-50544 | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Web Developer with 6+ months of hands-on development experience gained through a front-end development internship and independent full-stack (MERN) project work. Skilled in building responsive and user-friendly interfaces with React.js, JavaScript (ES6+), TypeScript, HTML5, and CSS3, and in building backend services with Node.js, Express.js, and MongoDB. Experience converting Figma UI/UX designs into production-ready pages and collaborating with remote teams via Git/GitHub. Seeking a Web Developer role to apply these skills within a collaborative development team.

TECHNICAL SKILLS

Frontend: React.js, JavaScript (ES6+), TypeScript, HTML5, CSS3, React Router, Bootstrap, Material-UI, Tailwind CSS

Backend & Database: Node.js, Express.js, MongoDB, Mongoose, MySQL, REST APIs

Tools & Practices: Git, GitHub, VS Code, Cursor, Responsive Web Design, SEO Fundamentals, Notion

Also Familiar With: C, C++, WordPress, GSAP, Three.js

PROJECTS

Claritii — Full-Stack MERN Web Application

React.js, TypeScript, Node.js, Express.js, MongoDB

- Building a full-stack web application, based on an original idea from my own experience, to help students who completed 10th or 12th grade make career decisions based on their interests.
- Building and connecting the application's backend using JavaScript, Node.js, Express.js, and MongoDB, and integrating it with the React.js and TypeScript front end to serve dynamic content.

RideIndia — Travel Companion Web App

React.js, TypeScript

- Building a mobile-first web application for bike riders across India, surfacing practical travel information such as rest stops, tea and food stops, and safe night-stay locations along a route.
- Designing women-specific safety features and destination-based recommendations (hidden gems, must-visits) to make trip planning safer and easier for riders.

EXPERIENCE

Front-End Developer Intern — SoftAir Technology

March 2025 – May 2025

- Converted Figma UI/UX designs into responsive, cross-browser web pages using HTML5, CSS3, and JavaScript, ensuring visual accuracy and consistent behavior across screen sizes.
- Collaborated remotely with a distributed development team using Git and GitHub for version control, code sharing, and coordinated feature delivery.
- Debugged and refined UI implementation issues during development to align final pages with design specifications.

EDUCATION

B.Tech, Computer Science Engineering — Baba Farid Group of Institutions, Punjab

Aug 2022 – Jun 2026

- CGPA: 7.0
- Expected graduation: June 2026

ADDITIONAL ACTIVITIES

- Hosted 3 National Hackathons on my college campus, leading multiple teams at a time.
- Led Art and Craft and mentorship initiatives, including coordination for Hackathons.
- Curated content for target audiences as part of content writing activities as interest alongside technical work.
